PROTEX

Fast-drying, Solvent-based, Stain-resistant Treatment for Marble, Granite, Natural Stone

COVERAGE: 10/20 m^2/l

EQUIP.: Lambswool applicator, roller, cloth

Quick Use Instructions:

✅ SURFACE PREPARATION:

- Thoroughly clean the surface, making sure to remove all dust and dirt.
- Do not apply PROTEX on wet or humid surfaces.
- Apply on surfaces with a temperature between +5 and +40◦C.
- Protect all areas not to be treated.

Always perform a preliminary test on an unexposed area or unused piece of material to check the product's suitability

✅ APPLICATION:

- **On a clean and dry surface, apply a thin and even layer of product using the preferred tool, making sure to cover the whole surface.**
- **The product dries quickly.**
- **Residues can be easily removed using a dry clean cloth.**
- **In case of highly absorbing materials, apply a second coat.**
- **Make sure to wait at least 45 minutes between applications.**

🕘 TIME:

Drying time: Within 45 minutes from application.

Resume surface use: After 2-3 hours from application.

✅ Suitable for:

Marble, Sandstone, Limestone, Granite, Slate, Basaltina, Quartzite, Porphyry, Travertine, Cotto, Terracotta, Marble-resin agglomerate, Marble-cement agglomerate, Quartz-resin agglomerate.

✅ Maintenance (Recommended Products):

- **Daily cleaning:** NEUGEL or ALGAFLOOR (depending on the material).
- **Heavy-duty cleaning:** FABER 30 or DETERFUG (depending on the material).
